SKILLS

- **Languages:** C++, JavaScript, C, Python, DBMS
- **Frameworks:** HTML, CSS, NodeJS, ReactJS
- **Tools/Platforms:** MySQL, MongoDB, Git, GitHub
- **Soft Skills:** Problem-Solving Skills, Team Player, Adaptability, Decision Making

PROJECTS

- **Dev Strome 2026 – Hackathon Coordination Platform** [Github](#) Aug 2026
 - Designed a UI/UX-focused event management platform for the 36-hour Dev Strome 2026 hackathon, centralizing essential event information and enabling participants to easily access schedules, rules, and event updates.
 - Integrated attendance management and break reminders to provide a structured and convenient experience throughout the hackathon
 - Implemented an interactive participant dashboard with centralized schedules, rules, announcements, and event updates, reducing the need to search across multiple sources.**Tech:** Html, CSS, JavaScript
- **Glow AI – AI Makeup Assistant** [Github](#) Apr 2026
 - **About:** Developed a makeup-focused application that enables users to explore makeup products and identify suitable shades based on their preferences.
 - Integrated an AI-powered chat feature to assist users with makeup-related queries and provide personalized guidance. Implemented a camera-based virtual try-on feature to help users visualize how different makeup shades may appear before making a selection.
 - Implemented a personalized product recommendation system that helps users discover suitable makeup products and shades based on their preferences, improving product selection and overall user experience.**Tech:** Python, APIs
- **Power BI Dashboard – Heart Disease Analysis** [Github](#) July 2026
 - Developed an interactive Power BI dashboard to analyze heart disease patterns and identify key health-related risk factors across different demographic and clinical groups.
 - Performed data cleaning, transformation, and analysis to prepare the dataset and created KPIs, charts, slicers, and filters for effective exploration of age, gender, and health conditions.
 - Identified and presented high-risk patient groups and meaningful trends through interactive visualizations, enabling clear data-driven insights and easier interpretation of complex healthcare data.**Tech:** Power BI, Data Cleaning, Data Transformation

CERTIFICATES

- Effective Communication Skills — Skill Era [Certificate](#) Oct 2024
- Getting Started with Data — IBM Skills Build [Certificate](#) July 2026
- Database Management System Part-1 — Infosys [Certificate](#) Aug 2026
- MongoDB Basics for Students — MongoDB Skill [Certificate](#) July 2026

ACHIEVEMENTS

- **36-Hour Hackathon Coordination** Aug 2026
Gained practical experience in coordinating a large-scale hackathon, including participant management, event communication, attendance, timings, rules, and break management.
- **Python – Basic to Advanced** July 2026
Successfully completed the “Complete Python – Basic to Advanced” certification from eTechNiketan, demonstrating proficiency in Python programming from fundamental to advanced concepts
- **Top Prompt Creator – Pitch Night Edition** Jan 2026
Recognized as a Top Prompt Creator during the Pitch Night Edition under the Google Student Ambassador Program for developing an innovative product concept using Gemini and Nano Banana.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.00 Since July 2024
- **Sarada Educational Institutions** Vijayawada, AP, India
Intermediate; Percentage: 83 April 2022 - March 2024
- **STBEM high school** Vijayawada, AP, India
Matriculation; Percentage: 90 April 2021 - March 2022
